

# Cloud Operator (m/f)

Full time, Halle (Saale)

## Who we are:

With more than 20 years of experience as well as a vast number of successful national and international projects HMS is known as a leading operator of entire integrated media ecosystems. As a new member of the Qvest Media group, a world-leading systems architect and ICT integrator in the fields of broadcasting and media technology, HMS is now set to expand its international activities, development projects and team of experts. Join us now and let us grow together!

## What we need you for:

You are working on our future cloud products for worldwide media, broadcast and sports clients and help us to improve every part of it: from user experience and well architected backend to performance.

## Your main focus:

- ▶ Manage cloud operations and virtualized environments
- ▶ Install and administrate servers, networks and applications in the cloud
- ▶ Efficient monitoring and continuous optimization of our cloud ecosystem
- ▶ Supply, operate & maintain our cloud services
- ▶ View and analyze summary data on cloud resource deployments
- ▶ Monitor requests and key metrics for cloud resources
- ▶ Design and develop cloud system architectures

## This is our tech stack:

- ▶ Kubernetes, Istio, Concourse, Harbor, Git, Vault, BOSH, MEAN, ELK
- ▶ Cloud Providers: AWS, Azure

## Your profile to fit in:

- ▶ Academic degree or equivalent professional qualification
- ▶ Minimum 2+ years of professional IT experience including cloud security
- ▶ Experience in cloud environments and cloud solution design
- ▶ Confidence in handling state-of the art web technologies and corresponding deployment
- ▶ Experience with high data volumes, performance optimization and performance testing
- ▶ Experience with all aspects of DevOps (source control, continuous integration, deployments, etc.)
- ▶ Knowledge about app virtualization and orchestration

## Your bonus qualifications:

- ▶ Familiarity with log aggregation solutions (e.g. Kibana, Logstash)
- ▶ Familiarity with metrics and analytics gathering (e.g. Grafana, Prometheus)
- ▶ Experience in Git, open pull requests, working with branches, making review, fixing conflicts
- ▶ Experience in Agile software development principles
- ▶ Pro-active attitude, team-oriented and excellent analytical and problem solving skills
- ▶ Good English is mandatory and solid understanding of German language

## What you can expect from us:

- ✓ A successful globally operating media technology company
- ✓ Excellent development opportunities
- ✓ Exciting projects with future-oriented topics
- ✓ Excellent working atmosphere and a great team of experts
- ✓ Flat hierarchies in an exciting and vital work environment
- ✓ Flexible working hours
- ✓ Opportunities to implement and develop your ideas, concepts and profile
