

# Full Stack Web Developer (m/f)

Full time, Halle (Saale)

## Who we are:

With more than 20 years of experience as well as a vast number of successful national and international projects HMS is known as a leading operator of entire integrated media ecosystems. As a new member of the Qvest Media group, a world-leading systems architect and ICT integrator in the fields of broadcasting and media technology, HMS is now set to expand its international activities, development projects and team of experts. Join us now and let us grow together!

## What we need you for:

You are working on our future cloud products for worldwide media, broadcast and sports clients and help us to improve every part of it: from user experience and well architected backend to performance. With your deep knowledge of modern web service technologies you are not only key to develop and improve our code base but you are also welcome to bring in suggestions for improving our cloud services.

### Your main focus:

- ▶ Develop various microservices providing next-gen media solutions and take part in building a rich cloud ecosystem
- ▶ Implement interfaces to external third party services

### This is our tech stack:

- ▶ Languages: TypeScript, JavaScript, HTML5, CSS
- ▶ Tools & Frameworks: Angular, Node.js, Express, MongoDB, ArangoDB, PostgreSQL, Elasticsearch, Bootstrap, Docker, Kubernetes, Git, Bash, Concourse

### Your profile to fit in:

- ▶ Academic degree or equivalent professional qualification
- ▶ Minimum 2+ years of focused, hands-on development experience, full stack developer
- ▶ Strong background in TypeScript, JavaScript, especially Angular 2+ and higher, Node.js, Express Framework
- ▶ Solid Knowledge of HTML / CSS, REST API programming
- ▶ Good data modelling knowledge of different database technologies
- ▶ Good experience with containerized architectures (e.g. Docker), management tools (e.g. Kubernetes) and the microservice architecture pattern

### Your bonus qualifications:

- ▶ Experience in Git, open pull requests, working with branches, making review, fixing conflicts
- ▶ Experience in Agile software development principles
- ▶ Pro-active attitude, team-oriented and excellent analytical and problem solving skills
- ▶ Good English is mandatory and solid understanding of German language

### What you can expect from us:

- ✓ A successful globally operating media technology company
- ✓ Excellent development opportunities
- ✓ Exciting projects with future-oriented topics
- ✓ Excellent working atmosphere and a great team of experts
- ✓ Flat hierarchies in an exciting and vital work environment
- ✓ Flexible working hours
- ✓ Opportunities to implement and develop your ideas, concepts and profile
